## SUPPORT ISNT THE WORD!

### Front and Center!

No matter who's performing, she's always the loudest and most excited fan in the crowd! She gives indie artists a chance to shine on stage, and she knows their music word for word!

### Radio Play

Lawrence has used her own network in the industry to connect artists to prominent Dj's, allowing their music to be heard across radio stations and podcasts.

### Money, Money, MONEY!

Capri is definitely about her coins! What's admirable though, is that she gives artists the ability to make money as well while teaching them how to build a loyal fan base at each show.

### "The Bestest!!"

### **Multifaceted Diva!**

The Suffolk, VA native not only promotes indie artists, but she's also a mother and runs a media print business. She holds events multiple times a week, while cheering on her children every step of the way at every milestone, and heavily supports other women! She's super woman in the flesh!
